

F SERIES • INDUSTRIAL UV PRINTER

## YOWILL F6090 Industrial UV Flatbed Printer

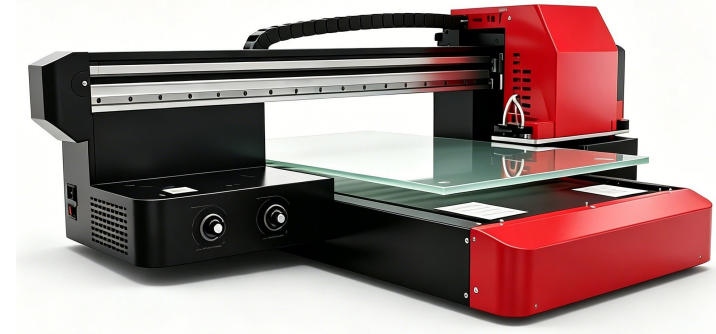

A production-ready 60 × 90 cm UV flatbed printing solution for signage, packaging samples, gift customization and small-batch industrial production. It supports CMYK, white ink and varnish output, allowing direct high-definition printing on acrylic, glass, metal, wood, PVC, leather and more.

60 × 90 cm Print Area

CMYK + White + Varnish

0-30 cm Print Height

LED UV Instant Curing

### Key Features

#### Industrial Print Format

60 × 90 cm print area for medium-size products, signage pieces and production samples.

#### Triple Printhead Output

Three Epson TX800 printheads help improve daily capacity and production efficiency.

#### Color + White + Varnish

CMYK, white ink and varnish output for transparent, dark and premium surface effects.

#### Direct-to-Material Printing

No plate making required. Print directly on acrylic, glass, metal, wood, PVC, leather and more.
