

DTF SERIES · TEXTILE TRANSFER PRINTER

YOWILL DTF-A3 Pro Textile Transfer Printer

An A3 DTF white ink transfer solution for apparel customization, T-shirts, hoodies, tote bags, hats and personalized textile printing. It supports PET film printing, white ink circulation, powder shaking and curing workflow for shops, studios, small-batch orders and e-commerce customization.

≤330 mm Print Width

2-4 Printheads Optional

PET Transfer Film

White Ink Circulation

Key Features

Made for Apparel Customization

Suitable for T-shirts, hoodies, pants, schoolbags, aprons, hats, masks and textile products.

Stable White Ink System

White ink stirring and circulation help reduce sedimentation and improve daily production stability.

Automated Workflow

Automatic cleaning and induction winding work with the powder shaker to improve efficiency.

Flexible Small-Batch Production

No plate making required. Ideal for multi-design, multi-color and short-run orders.
